/rouen96.html

The main issue of the Symposium is a critical look at the subject. New Ideas may be presented, even if they did not yet show full success. The demonstration of errors or limits of methods is explicitly welcome. Contributions may put main emphasis on theoretical as well as applied topics. Most welcome are contributions, concerned with unsolved or not yet fully satisfying solved problems and possible new attempts.

Invited Keynote Lectures:

The following authors have agreed to present extended lectures:

A. Dervieux, INRIA Sophia Antipolis, France
T. Gallouet, ENS Lyon, France
M. Kroener, Inst. f. Angewandte Mathematik, Uni-Freiburg, Germany
M. Meinke, Aerodynamisches Institut, RWTH-Aachen, Germany
I. Toumi, CEA, Saclay, France
J. P. Vila, INSA de Toulouse, France
N. P. Weatherill, University of Swansea, UK
G. Wittum, Inst. f. Computeranwendungen, Uni-Stuttgart, Germany

Submission of Abstracts:

Those wishing to present a contribution at the symposium are invited to submit an abstract of approximately **1000 words** to one of the contact addresses below. Abstracts must arrive not later than **March 15, 1996**. Selections are made upon originality of the subjects proposed and clarity. Work in progress is welcome.
